

IECEX 230V EMERGENCY TUBE LIGHT

ORDER CODE: LIGHT230E

DESCRIPTION

Our portable LED emergency lights are a robust and lightweight temporary lighting solution for hazardous areas. The battery-backup design provides lighting for up to 90 minutes after loss of power, allowing safe evacuation. Certified for use in zone 1 and 2, with a compact design and "daisy-chain" linkable feature, our emergency tube lights are safe, versatile, and reliable. Suitable in use in confined spaces in accordance with AS 2865, when protected with an RCD located outside the confined space.

KEY FEATURES

- ATEX and IECEx certified for zone 1 and 2
- Simple plug-in operation
- High Power LEDs
- Lightweight and compact
- Linkable in-line
- Tough and durable
- Exceptionally reliable
- Waterproof and dustproof
- Anti-static protective film system
- Emergency battery backup function
- Adjustable hanging straps
- AS/NZS 60079 compliant

TECHNICAL SPECIFICATION

Zone Rating	Zone 1 & 2
Temperature Classification	T4
Voltage	200-250V
Current Draw	< 1A
Frequency	50/60Hz
Battery Charge Time	11 hours
Battery Backup Operation	90 minutes
Weight	3kg
Ingress Protection	IP66
Plug Options	CEAG, STAHL *
Socket Options	CEAG, STAHL *
Cable	5m shielded LSZH **

* Other plug and socket options available upon request

** Other cable lengths and types available upon request
