

# IECEX LOW VOLTAGE LIGHTING KIT

ORDER CODE: LIGHTLVKIT

## DESCRIPTION

Our low voltage lighting kits provide temporary lighting solutions for hazardous areas and confined spaces. Certified for use in zone 1 and 2, with a compact design and powerful output, our low voltage lighting kits are safe, versatile and reliable. Typically includes a low voltage transformer and four low voltage tube lights. Suitable in use in confined spaces in accordance with AS 2865.

## KEY FEATURES

- Portable, tough and durable
- Compact
- Waterproof and dustproof
- Exceptionally reliable
- Fuse protected
- Tank and vessel entry
- AS/NZS 60079 compliant
- AS 2865-2009: Confined Spaces compliant

## TECHNICAL SPECIFICATION

Zone Rating	Zone 1 & 2
Temperature Classification	T4
Input Voltage	200-250V
Light Voltage	24V
Frequency	50/60Hz
Ingress Protection	IP66
Plug Options	CEAG, STAHL *
Socket Option	CEAG, STAHL *
Cable	5m shielded LSZH **

\* Other plug and socket options available upon request

\*\* Other cable lengths and types available upon request
