

# IECEX LED TOWER LIGHT

ORDER CODE: LIGHTTOWER

## DESCRIPTION

The Safehouse Tower Light is a rugged fully ATEX & IECEx certified transportable light, providing high quality illumination for medium to large sized areas with a powerful spread of light.

With an 6.1m transportable mast, the Safehouse Tower Light can be easily positioned and manoeuvred to accommodate your needs. The adjustable light head with secure positioning bolt allows efficient angling of the light in both upwards and downwards directions.

## KEY FEATURES

- Light output 23,500 lumens
- Durable construction
- Easy plug-and-play application
- Large spread of high-power light
- AS/NZS 60079 compliant
