

6.1KW PORTABLE AIR CONDITIONER

ORDER CODE: NX-ACU

DESCRIPTION

Our non-Ex portable air conditioners provide temporary cooling to work sites in non-hazardous areas. The units are simple to use and operate off a standard 10A power point. They can be used within the conditioned space by ducting the condenser air (i.e. hot air) out of the conditioned space using ducting attached to the top flange mount. Alternatively, they can sit outside of the conditioned space and have the refrigerated air ducted in. The units are ideally suited to provide spot cooling for personnel, or can cool smaller workspaces up to 30 m³.

KEY FEATURES

- Simple plug-in operation (standard 10A outlet)
- Highly portable
- Fully adjustable thermostat
- Hour timer
- Alarm when condensation tank is full

TECHNICAL SPECIFICATION

Cooling Capacity	6.1 kW
Voltage	240 V
Rated Current	9.5 A
Airflow	790 m ³ /hr
Dimensions (H x W x D)	1042 x 523 x 672
Weight	90kg
Cold Air Diameter	120mm
Hot Air Diameter	300mm
Plug Options	Standard domestic, Clipsal *
Cable	5m shielded **

* Other plug options available upon request

** Other cable lengths and types available upon request
